Md Atiquzzaman Soikat

Senior Software Engineer / Frontend Technology Lead

atiq@soikat.dev ❖ 8801726207822 ❖ Dhaka, Bangladesh

[GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Senior Software Engineer with 10+ years of experience specializing in frontend architecture and full-stack development. Proven track record of leading teams in building scalable web applications for the hospitality industry. Expert in modern JavaScript frameworks with a focus on performance optimization and accessibility. Open source contributor with multiple published packages.

Professional Experiences

Skipper Hospitality   **Sep. 2021 – Present**
Senior Software Engineer/Team Lead   Ny, USA

Led the frontend development team for developing booking engine solutions and client websites. Managed multiple cross-functional teams and architected scalable solutions.

Key Projects:

- Led frontend development for scalable booking engine solutions and client websites.
- Architected and enhanced the custom 11ty framework for client website development.
- Implemented an SEO audit tool to preemptively resolve on-page SEO issues.
- Delivered an MVP for a booking widget leveraging Svelte and XState, optimizing routing and accessibility.
- Developed a CLI application to streamline the creation of client pages.
- Introduced unit and E2E testing frameworks to enhance product reliability.

Technologies: Node.js, Svelte, TypeScript, React.js, Tailwind, XState, Vitest

Butler Hospitality   **Aug, 2018 – July, 2021**
Senior Frontend Engineer/ Team Lead   Ny, USA

Led frontend development initiatives for a hotel foodservice and hospitality platform, serving as the principal frontend architect for multiple business-critical applications.

Key Projects

- Designed and implemented ButlerMenu.com, a static website enabling efficient product data handling via JSON.
- Developed the Butler Mobile App with React Native, streamlining order delivery processes.
- Delivered an Expeditor App for hotel kitchens with advanced drag-and-drop UX improvements.
- Maintained and enhanced OMS, the core order management system, introducing city, hub, and menu management features.

Technologies: React, React Native, Node.js, Styled Components, Java Spring Boot, Angular.js

Jetaport/Skipper	**Nov, 2015 – Apr, 2018**
Frontend Developer	Ny, USA

Jetaport.com, later rebranded to hiskipper.com, was a group hotel booking service. I worked as a Frontend dev for Jetaport.

Key Projects

- Migrated Jetaport's Ember.js application from v1.10 to v1.13 with zero downtime.
- Implemented real-time chat functionality, boosting customer engagement rates.
- Led a UX/UI overhaul that resulted in a 15% increase in booking conversions.
- Developed Chatting feature for our booking platform which helped with customer support satisfaction

Technologies: Ember.js, JavaScript, Node.js
